

We'd rather roll up our sleeves, than wait for one of these to turn up.

Lucky for us, we believe in hard work. We're not going to wait for opportunity to knock – or hunt for four leaf clovers.

We've built one of North America's premier natural gas infrastructure companies by thinking boldly... planning wisely... and working hard. We're setting the bar higher through constant innovation. We value our communities and environment and we are devoted to reducing our impact while protecting our natural resources. And, we're expanding our network for pipelines to meet the energy needs of tomorrow.

Hard work that delivers. Lucky for you.
